TO THE COMMUNITY

EnviroServ would like to correct inaccuracies contained in an anonymous email distributed earlier today. The document contains information which incorrectly alleges malpractices by EnviroServ at landfill sites around the country which are managed by us.

The document includes conclusions and assertions that are devoid of any truth or merit and are factually and legally incorrect

We are investigating the source of the document, although the email address from which the document has been disseminated is fictitious and has already been deleted. It's very clear then, that the circulation of this document is part of an orchestrated campaign based almost entirely on misinformation, designed simply to create discord and outrage.

It's really unfortunate that reasoned discussion and solutions-focused initiatives are being subject to a campaign to derail efforts we are making to address community concerns. We would urge you not to be associated with this letter or its contents because they're just not true.

Yours sincerely

Dean Thompson
